1. Introduction

1.1. Our company: Web3 Accelerator

Web3 Accelerator is a leading tech startup specializing in innovative web solutions. Our team comprises highly skilled professionals with extensive experience in developing robust and scalable applications. We are excited about the opportunity to collaborate with Instamint and bring your vision to life.

1.2. Objectives of this response of the call for tenders

The primary objective of this call for tenders is to develop the alpha version of the Instamint platform, with a detailed proposal for the alpha version and an optional quote for the beta version. The Instamint platform aims to create a thriving ecosystem for digital art enthusiasts by integrating experts and galleries, fostering a large community of NFT and crypto enthusiasts.

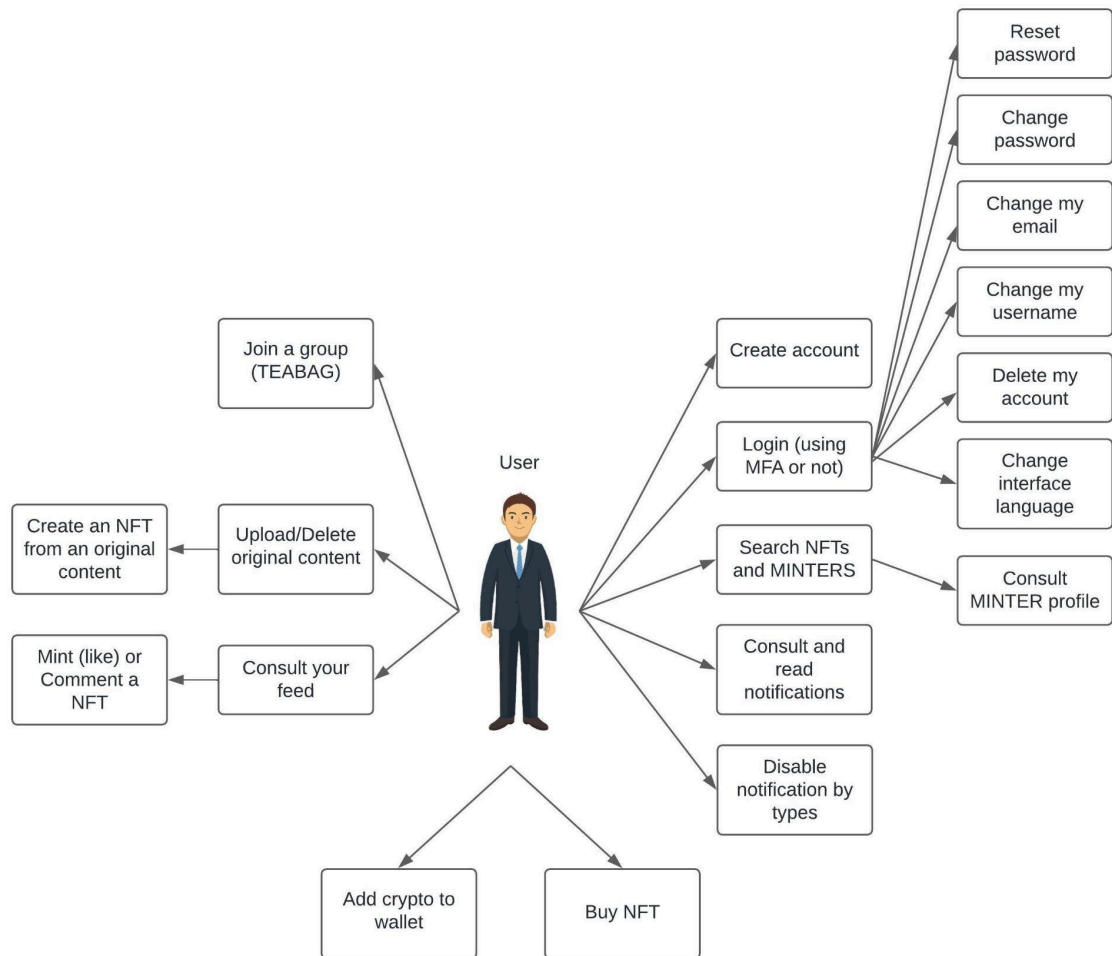

1.3. Deadlines

The project must be delivered fully after one year.
We are releasing new features every month until then.

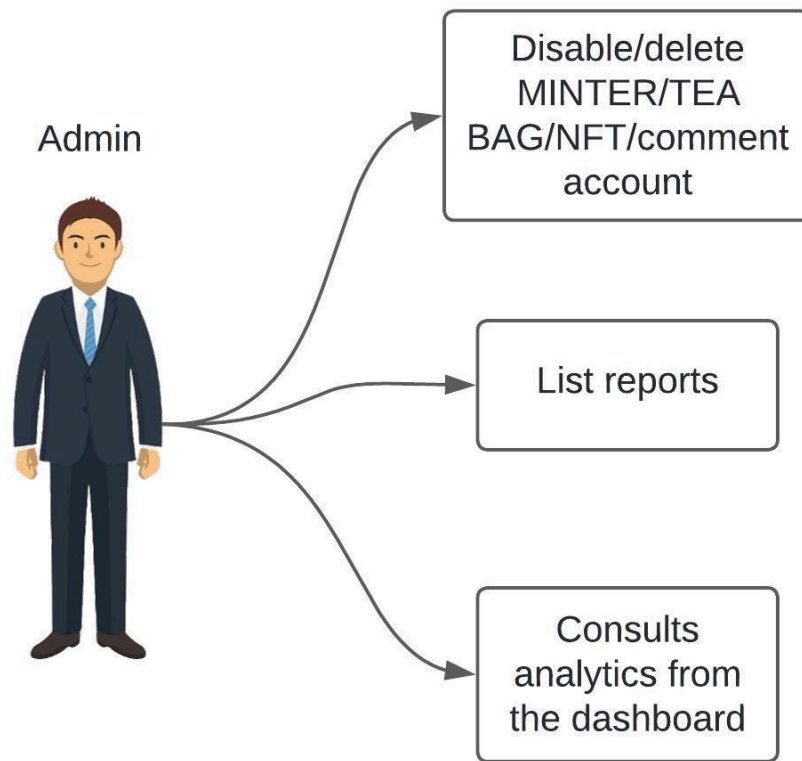

2. Use Case Diagrams

We propose these diagrams to cover an idea of what your product can do.

2.1. User diagram

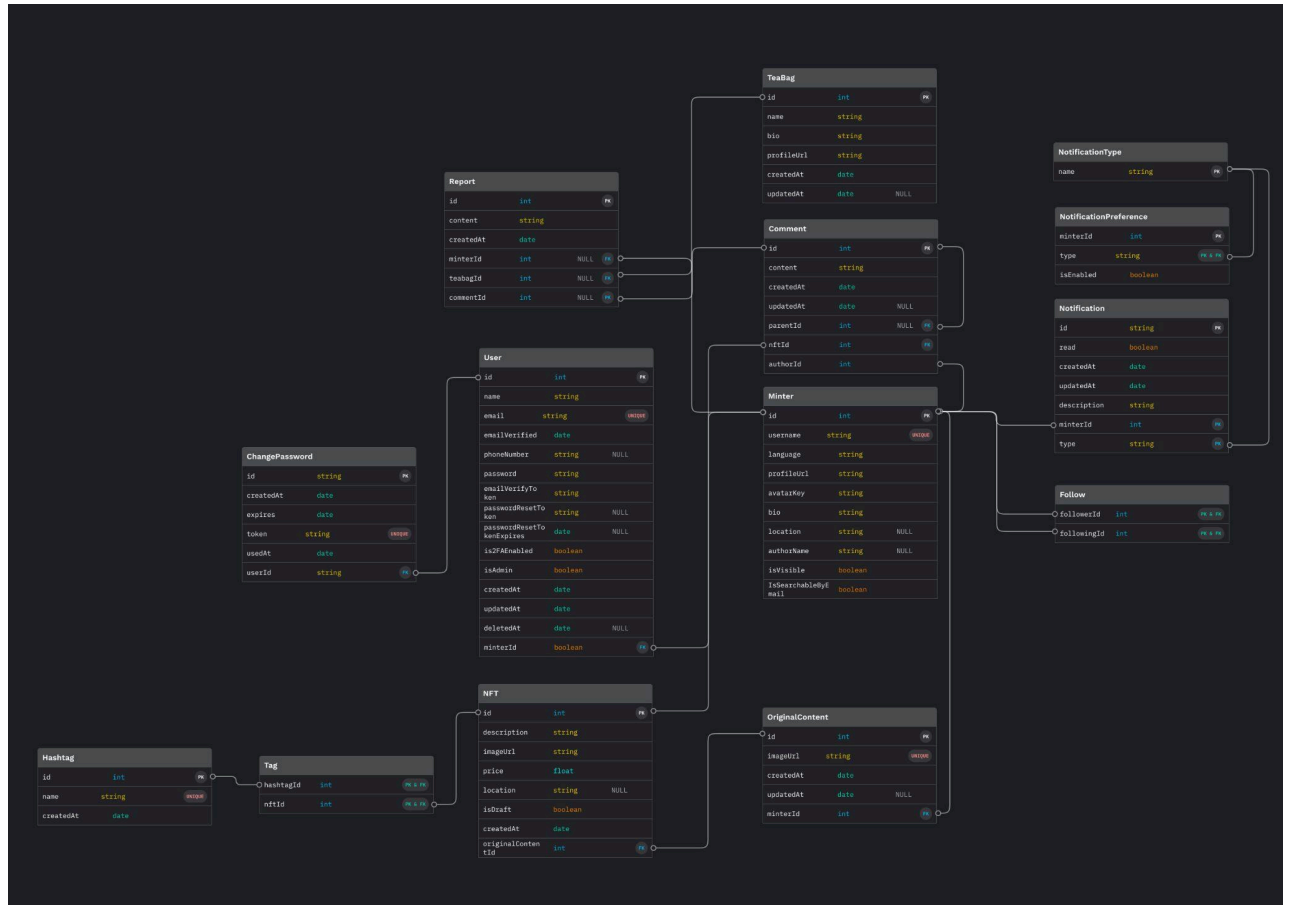

2.2. Admin diagram

3. Physical Data Model

To handle the use cases told in the call for tenders, we have already made the PDM (Physical Database Model)

4. Budget

Estimated budget:

Role	Number of positions	Duration (years)	Total Cost (€)
Tech Lead	1	1	85k
Back-End Developer (Blockchain specialist)	1	1	60k
Front-End Developer	1	1	45k
QA Engineer	1	1	50k
Additional costs (Cloud + Maintenance of the product)			20k
Total Estimated Cost			310k

4.1. Tech Lead

Responsible for overseeing the project development, ensuring that all technical aspects meet the required standards.

4.2. Back-End Developer

Focus on developing the server-side logic, database interactions, and API endpoints.

4.3. Front-End Developer

Responsible for implementing the user interface and ensuring a seamless user experience.

4.4. QA Engineer

Ensures that all code meets the highest quality standards through rigorous testing and validation processes.

5. Project Terms

5.1. Monitoring Terms

- Regular updates and progress reports will be shared with the Instamint team (Richard Lenoir, Rackham Lerouge & René Leblanc) to ensure transparency and alignment with project goals.
- A dedicated project manager will be assigned to coordinate and communicate with the Instamint team.

5.2. Legal Terms

- All development work will comply with the General Data Protection Regulation (GDPR) and other relevant European laws.
- A detailed legal document outlining data processing and retention policies will be provided.

5.3. Delivery Terms

- The project will be delivered in 1 year.
- Each month, new pack of feature (a release) will be demonstrate the Instamint team.
- Full access to the source code, hosting platform, and detailed deployment documentation will be provided upon project completion.
